

# FOXPRO GELUIDE WAT WERK OP JAKKALSE

---

Not all sounds work every time, in fact hardly all do, but these are sure winners most of the time.

- Dying Jack
- Jackrabbit Distress
- Antelope Fawn
- Chicken Distress #1 Not #2!
- Lightning Jack
- Luscious Lips

These are my dead bang favourites, I use them a lot on especially new virgin farms, the Free State is easiest to call jackal, the stuff cannot compare to Karoo jakkalse, they are not nearly in the same league, jy sal nooit so baie jakkalse doodmaak in die Karoo as wat jy in die Vrystaat sal doodmaak nie. The **RED** are the best ones.

---

I have used these sounds all over, and these are sure killers for jackal, cats I have much more success with a hand call, but with electronics and squeaky sounds like Scrub hare, flying squirrel work ok, maar better with a hand caller.

Hope this helps.
