

CUSTOM CRAFTED HAND CALLS

If you need hand crafted custom calls, contact Gary at 0824853885, to discuss your needs, Gary is the **ONLY** custom game call maker in South Africa and produces top quality custom work - from a craftsman's perspective Gary's awesome with what he puts out of the shop.

Custom crow calls made for a movie production overseas with that old age look. Each call is totally hand made and a general simulated ivory / bone or horn call takes about 5 hours to complete. These are featured in outdoor shows in the USA.

These calls are made to look very old, even the tone boards are old looking – real exotic finishes.

TO PLACE ORDERS FOR CUSTOM CALLS CONTACT GARY DIRECTLY AT 0824853885

Here are a few links to custom work just of recent within the past month;

This is the prototype design of an open reed jackal call, jakkals hand fluitjie, which will be mass produced in 2012, totally SA design and made, even the MYLAR pipe is made by Gary, the entire call is made from a solid bar of Mylar, except the reed and plug. They are separate components BUT are also MYLAR.

NEXT

Here is a closed reeded caller, made for a customer in Kuruman, closed reeded simulated ivory, bone or horn this was a very special order as typically we don't do closed reed calls, they can't offer sounds like an open reed caller can produce.
