

Jackal / Cat calling **SECRET**

Here is a very simple thing you can do, however many don't do this as it does not spring to mind for many of us.

You go out at dusk and set up; it gets dark and you gooi – the same old thing every time – every night.

NOW;

Try this; get up at 3 bells, go to the spot, set up and call till it gets light – don't move just call one place till it gets light, if you klap something don't worry, carry on calling.

TRY THAT!

Change your strategy, it does work.

This is a small thing that works. (And leave the bakkie at home, call in the bush with just a chair like we do, see here). Jakkals jag sonder n bakkie

DECEMBER 2010 FREE STATE

Use 2 callers as per normal and create a story for a jackal, killed all 3 at one stand in 40 minutes.
